# Troubleshooting

The FastHub 112F LEDs facilitate troubleshooting during ongoing operation. Table 4-1 displays the potential problem symptoms, possible causes, and corrective actions.

**Table 4-1          Troubleshooting**

| Symptom | Possible Cause | Corrective Action(s) |
|---------|----------------|----------------------|
| Power LED does not come on | Power switch off | Turn on switch |
| | Power cord not connected | Plug in both ends of power cord |
| | Fuse blown | Replace fuse. If the problem recurs, contact Cisco or your authorized reseller |
| | Other | Contact Cisco or your authorized reseller |
| Link LED does not come on | No cable inserted | Insert both ends of cable into a device |
| | Device(s) not powered | Ensure both devices have power |
| | Bad cable | Replace cable with known good one |
| Disabled LED blinks | Device at other end malfunctioning | Investigate device at other end of cable from the disabled FastHub 112F port |
| | Bad cable | Replace cable with known good one |
